

ITC INFOTECH

A specialized global full service technology solutions provider

ITC Infotech is a specialized global full service technology solutions provider, led by Business and Technology Consulting. The company is focused on creating value through **Domain, Data, Digital, Design and Differentiated Delivery** for Supply-Chain-based Industries (CPG, Retail, Manufacturing, Hi-Tech) and Services Industries (Banking, Financial Services and Insurance, Airline, Hospitality), as a flexible, trusted and sustainable partner.

In today's age of digital disruption, ITC Infotech has tailored its strategy around the following 5D framework to serve its clients better:

CREATING ENDURING VALUE

DOMAIN Led

Solutions and services are powered by deep domain understanding and practitioner's expertise in focus industries

DATA Infra to Insight

From infrastructure to insights, we enable clients to leverage the power of Data with actionable insights and prescriptive analytics

DIFFERENTIATED Delivery

With excellence forming the corner stone of each engagement, we are committed to customized Delivery; Outcome-based, BOT, JVs, As-a-service and subscription models

DESIGN Expert

Provides UI/UX, high-end engineering design solutions and services to market-leading engineering organizations worldwide

DIGITAL Ready

Provides digital solutions to help clients transform their business and enhance customer engagements

This framework guides ITC Infotech's journey of creating enduring value for its clients in the next wave of exponential growth in the IT Industry. ITC Infotech is well poised to ride the next wave of exponential growth. The company has sharpened focus on providing cutting-edge solution and capabilities with the launch of Software Product Engineering Services 2.0 to address growing demands in the areas of Mobility, Big Data, DevOps and Cloud Applications.

Offerings – Domain-led, Consulting Enabled

ITC Infotech focuses on developing deep and differentiated capabilities that are aligned to the company’s strategy. The company has been successful in attaining differentiation in niche areas and continues to gain competitive advantage to strengthen its market standing.

ITC Infotech’s technology Lines of Business (LOBs) are powered by our strong business and technology consulting practices and are classified under three broad categories:

Partnership/Alliances

ITC Infotech has partnered with global technology leaders to provide cutting-edge offerings to its clients.

People First

ITC Infotech helps its employees actualize their true potential through numerous training and development programs. The company is committed to build an innovation-friendly people culture, and empowering each employee to be its brand ambassador.

The company aims to provide each employee a wholesome and challenging job profile that effectively aligns individual aspirations to organizational needs. ITC Infotech offers global careers, global exposure and a diversity of opportunities to create business and technology leaders of tomorrow.

The company became the first Indian IT company to receive the prestigious Social Accountability (SA) 8000:2008 certification. SA8000 is widely accepted as the most viable and comprehensive international workplace management system.
