KONDOR+ UPGRADE TOOL SUITE

- Reduce your upgrade Cost
 - Reduce your upgrade Risk
 - Focus your energy on maximizing value out of the new version
- ✓ Kustom Impact Analyser provides an exhaustive impact analysis on your custom code. It tells you where you have impacts and how to modify your code to be compliant with the new version of Kondor+ or K+TP.
 - ✓ Report Comparer compares financial reports from Kondor+ whether they are core (Financial, Gap Analysis, etc.) or custom reports. Identifying regression issues become easy.
 - ✓ One Step is an automated upgrade script making an upgrade a one click action. It reduces operational risk during Kondor+ core upgrade execution.

KUSTOM IMPACT ANALYSER

Most Kondor+ upgrade projects overshoot on customization migration by 100%

- Items missed discovered at integration testing stage cost 5 times as much to fix
- Items missed discovered at Acceptance testing or later can delay the project, cost real money or create reputation risk

Divides by at least 5 the project effort around your custom code and interface migration.
