

Business-friendly Solutions

A cityscape at dusk or dawn, featuring prominent skyscrapers like The Shard and the Gherkin. The scene is overlaid with a network of glowing blue and white lines and nodes, suggesting a digital or data-driven environment. The background is a gradient of light blue and white, with several large, semi-transparent blue triangles pointing in various directions.

Automation through **DevOps**

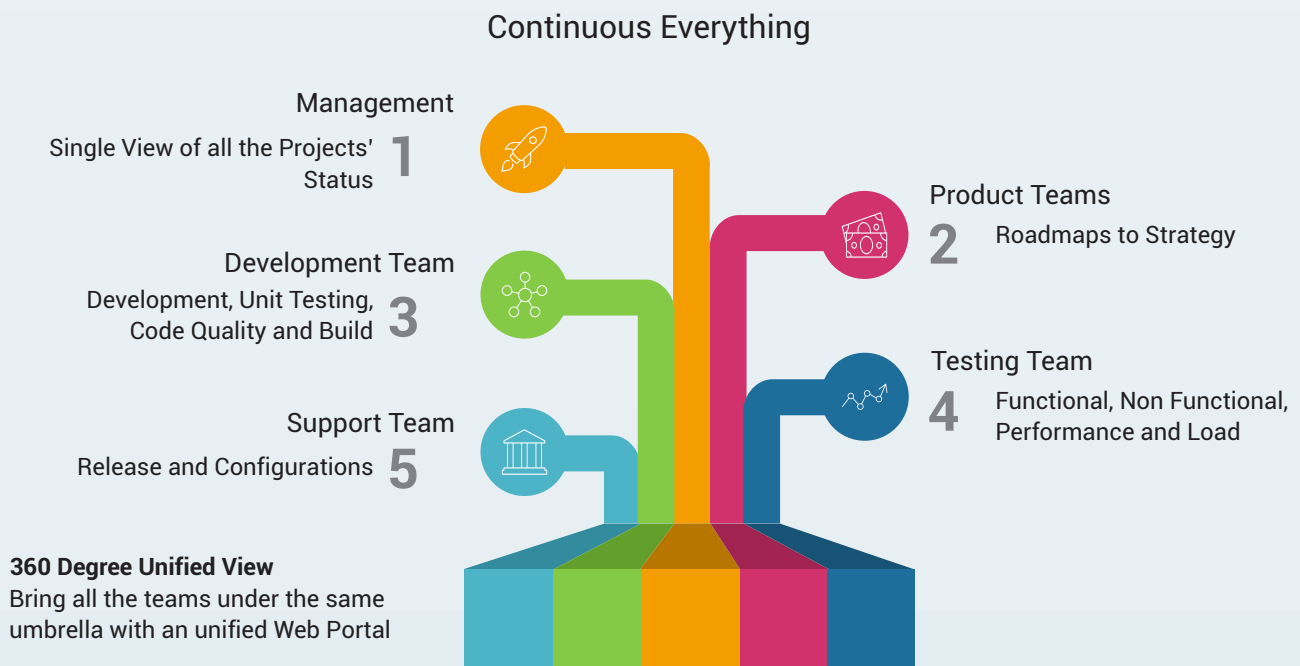

AutomateBuild , Test And Data Load

Continuous Integration , Testing And Delivery

DevOps for FlexPLM is a ready automation Framework for Deploy Build, Test and Data Load. ITC Infotech has adopted DevOps for PLM which will enable high-frequency deployments thus facilitating process of constant change and improvement.

- ✓ Faster delivery of features
