

# INTEGRATED VENDOR MANAGEMENT

Powered by NextGen PLM

- Dynamic & user-friendly dashboards ✓✓
- Seamless FlexPLM integration ✓✓
- Real-time access to audit information ✓✓

ITC Infotech's Integrated Vendor Management app has been developed by extending the mobility framework for PTC's FlexPLM. This provides efficient services related to audit management, inspection, and vendor compliance.

- User-friendly and optimized UI/UX
- Seamless navigation through reports and responsive dashboards
- Get instant access to historical records and audit guides
- Conduct audits remotely, at any time
- Come up with corrective action plans during audits

### **Audit & Inspection Management**

- Plan, Prioritize, Schedule audits & Inspections
- Customized questionnaires
- Centralised Audit & inspection data repository
- Manage Audits & Inspections on Mobile devices

### **Vendor Score Card**

- Monitor and Track Vendor compliance and Performance
- Automated Vendor Scorecard System
- Informed Product Allocation and Development Decisions

### **Enhance Collaboration**

- Capture, Track & Monitor Corrective action plans
- Visual Dashboards for reporting
- Automated alerts & notifications
- Workflow capabilities

## **About ITC Infotech**

ITC Infotech helps customers digitize end-to-end product lifecycle processes to enable rapid innovation, reduce time-to-market, optimize supply chain, source and manufacture products efficiently by leveraging our rich consulting expertise in Product Lifecycle Management across domains in the retail industry including Fashion & Apparel, Footwear, Home, Consumer Products & Hard Goods. Our solutions bring together the best of industry practices and next generation technologies in Cloud, Mobile, Analytics and IoT to enable future readiness for retail businesses.
