

Business-friendly Solutions

ThingWorx Navigate Services

Extend the value of product data across the organization

Product data is the most valuable asset for your organization and important business decisions rely upon this information. To realize the business benefits of good decisions, it is essential that teams throughout your organization involved in bringing the product to the market has access to the most up-to-date product information whenever they need it without routing through design & engineering. This saves your engineers valuable time often lost in fulfilling product data requests from stakeholders across the company.

Managing Product Lifecycle with ThingWorx Navigate

PTC's revolutionary ThingWorx Navigate allows self-serve of product data sourced from multiple systems in a simple, role-based interface. This way teams who impact the product throughout its lifecycle can easily access the real-time, change-managed, single source of truth for product knowledge, ensuring that every stakeholder involved is leveraging accurate information for their decisions.

Some of our work on ThingWorx Navigate

- Custom built SubPart App
- Custom built Promotion Request App
- Part details in single view
- View tasks assigned in Windchill
- Create specific reports from data
