

FlexPLM implementation for Furniture industry

Executive Summary

A leading furniture manufacturer partnered with DxP Services to streamline their Product Development process and improve collaboration within the organization.

The Challenge

- Departments working in silos, non standardized PD processes
- Multiple in-house systems for managing Product information
- Double work (manual) to synch information across platforms
- Lack of clarity in work ownership
- Standardization of language from their local language to English

Our Solution

- Process refinement sessions to define their TO-BE process based on industry best practices
- Standardization of PD data, ownership definition, supplier management etc in PLM
- Integration between ERP & PLM for data flow to downstream systems

Key Results And Benefits

- Streamlined PD Processes
- Centralised data management
- Reduced dependency on their in-house data management platforms.
Some in-house platforms have been identified for removal in the near future
- Improved collaboration within the teams
- Improved reporting capabilities on Product Development

ABOUT DxP SERVICES

DxP Services is an ITC Infotech specialized business unit focused on the implementation and adoption of PTC's industry-leading Windchill®, Product Lifecycle Management (PLM) software, as well as Cloud and Windchill+® SaaS offerings. Created through the acquisition of PTC's PLM implementation services division, **DxP Services** is the largest global PTC PLM ecosystem. The combination of PTC Heritage and ITC Infotech Power means that **DxP Services** is uniquely positioned to help accelerate customers' digital transformation initiatives.

Our portfolio of services augments value at every step of Modern Industrial Evolution; covering Consulting, Implementation, Deployment, and Migration. **DxP Services'** team of PLM Professionals are trusted advisors to our Customers during their Digital Transformation.
