

DxP Services implements Windchill SIM at leading vehicle manufacturer

Three legacy systems replaced by Windchill SIM

Executive Summary

DxP Services has executed a GoLive at a leading vehicle manufacturer. Windchill SIM has replaced 3 legacy applications for Aftermarket Management.

The Challenge

Data was spread across 3 legacy systems, which lead to issues with data consistency and maintenance

Our Solution

- Replace the 3 Parts Catalog Portfolio management apps with Windchill SIM
- 2 integrations to upstream systems, 1 integration to downstream system
- Millions of objects migrated with several runs and verification cycles to reach PROD maturity

Key Results And Benefits

- Windchill SIM delivers maintainability of their products, and world class services to secure the productivity of transport solutions
- Value created: repair workshop autonomy, maintenance effectiveness, service market business development thanks to centralized data

ABOUT DxP SERVICES

DxP Services is an ITC Infotech specialized business unit focused on the implementation and adoption of PTC's industry-leading Windchill®, Product Lifecycle Management (PLM) software, as well as Cloud and Windchill+® SaaS offerings. Created through the acquisition of PTC's PLM implementation services division, **DxP Services** is the largest global PTC PLM ecosystem. The combination of PTC Heritage and ITC Infotech Power means that **DxP Services** is uniquely positioned to help accelerate customers' digital transformation initiatives.

Our portfolio of services augments value at every step of Modern Industrial Evolution; covering Consulting, Implementation, Deployment, and Migration. **DxP Services'** team of PLM Professionals are trusted advisors to our Customers during their Digital Transformation.
