

DxP Services Creo Elements Direct to Creo Parametric Transition Campaign

Executive Summary

Migrating from one CAD application to another is a complex process. Designers must be thoroughly and effectively trained. Working methods and processes must also be revised. Communication during such a change process is also crucial for a successful transition from one CAD application to another. DXP Services actively supports you in your CAD transition process.

The Challenge

- Transitioning from various CAD Application to Creo Parametric offers the power of “best in class” parametric modeling
- Explore DXP Services’ service offering with focus on your transition process, develop migration strategy and execution, and unlock the benefits of parametric design intelligence.

Our Solution

DXP Services as the CAD Integration Service Provider supports you from the analysis to the definition of your CAD conversion process

- Definition of all requirements in the “Engineering Design Process”
- Improve CAD design and methodology in all areas e.g. Simulation, Change Management, Configuration Master models, Variant Design, ...
- Integration of the Engineering Design Process with PLM System / Windchill
- Customization of the CAD software to the specific requirements
- Migration of CAD-Data based of the defined CAD designs and methodologies (Engineering Services)
- Communication, Training & Education
- Application Maintenance Services (AMS)

Key Results And Benefits

After a successful transition DXP Services enables you to benefit from the full potential of Creo Parametric

- Analyze the AS-IS state of your CAD environment
- Adopt and improve today’s design process to parametric design intelligence
- Provide a cost-efficient CAD-Data Migration program (Engineering Services)
- Provide “End to End” transition process
- Implementation of the CAD transition from a single source with guaranteed data quality

ABOUT DXP SERVICES

DXP Services is an ITC Infotech specialized business unit focused on the implementation and adoption of PTC's industry-leading Windchill®, Product Lifecycle Management (PLM) software, as well as Cloud and Windchill+® SaaS offerings. Created through the acquisition of PTC's PLM implementation services division, **DXP Services** is the largest global PTC PLM ecosystem. The combination of PTC Heritage and ITC Infotech Power means that **DXP Services** is uniquely positioned to help accelerate customers' digital transformation initiatives.

Our portfolio of services augments value at every step of Modern Industrial Evolution; covering Consulting, Implementation, Deployment, and Migration. **DXP Services'** team of PLM Professionals are trusted advisors to our Customers during their Digital Transformation.
